

Peachtree Alternative Strategies Fund

Annual Report April 30, 2019

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports like this one will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically by contacting the Fund at (800) 657-3812 or, if you own these shares through a financial intermediary, you may contact your financial intermediary.

You may elect to receive all future reports in paper free of charge. You can inform the Fund that you wish to continue receiving paper copies of your shareholder reports by contacting the Fund at (800) 657-3812. If you own shares through a financial intermediary, you may contact your financial intermediary or follow instructions included with this document to elect to continue to receive paper copies of your shareholder reports. Your election to receive reports in paper will apply to all funds held at your financial intermediary.

3550 Lenox Road, NE, Suite 2700
Atlanta, GA 30326**

Investment Results (Unaudited)

Average Annual Total Returns⁽¹⁾
as of April 30, 2019

	One Year	Since Inception (1/3/17)
Peachtree Alternative Strategies Fund	0.7%	3.7%
Bloomberg Barclays U.S. Aggregate Bond Index ⁽²⁾	5.3%	2.8%
MSCI All Country World Index ⁽³⁾	5.1%	12.0%

The returns shown do not reflect the deduction of taxes that a shareholder would pay on Peachtree Alternative Strategies Fund (“Fund”) distributions or the redemption of Fund shares.

Performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. All performance figures are presented net of fees.

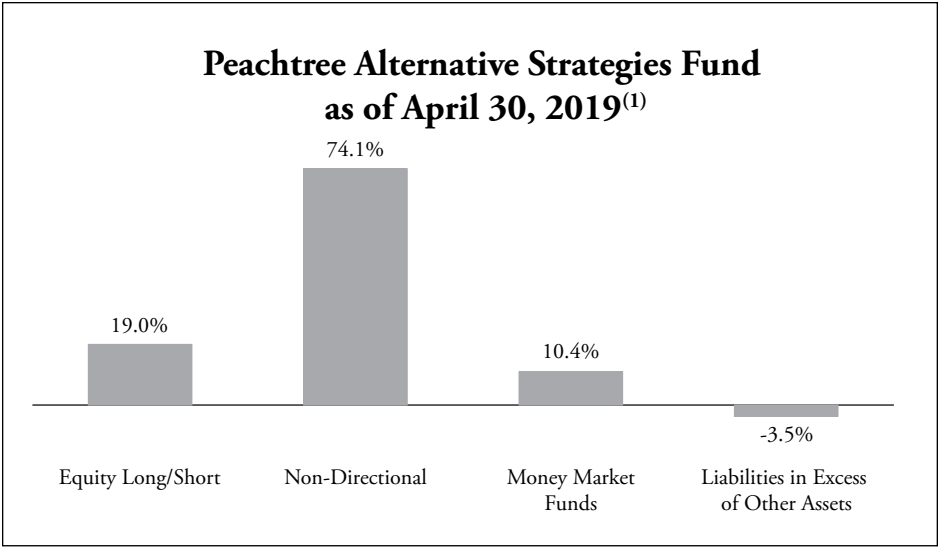

Investors should carefully consider the investment objectives, risks, charges and expenses of the Fund. This and other important information about the Fund is contained in the prospectus, which can be obtained by calling (800) 657-3812. The prospectus should be read carefully before investing. The Fund is distributed by Ultimus Fund Distributors, LLC (Member FINRA).

⁽¹⁾ Return figures reflect any change in price per share and assume the reinvestment of all distributions. The Fund’s returns reflect any fee reductions during the applicable period. If such fee reductions had not occurred, the quoted performance would have been lower. Performance for more than one year is annualized.

⁽²⁾ The Bloomberg Barclays U.S. Aggregate Bond Index (“Index”) is a broad-based flagship benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market. The Index includes Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass-throughs), ABS and CMBS (agency and non-agency). Individuals cannot invest directly in the Index; however, an individual can invest in exchange traded funds or other investment vehicles that attempt to track the performance of a benchmark index.

⁽³⁾ MSCI All Country World Index (“MSCI Index”) captures large and mid cap representation across 23 Developed Markets and 23 Emerging Markets countries. The performance of the MSCI Index is expressed in terms of U.S. dollars, and does not reflect the deduction of fees or operating expense. Individuals cannot invest directly in the MSCI Index; however, an individual can invest in exchange traded funds or other investment vehicles that attempt to track the performance of a benchmark index.

Fund Holdings (Unaudited)

¹ As a percentage of net assets.

Availability of Portfolio Schedule (Unaudited)

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (“SEC”) for the first and third quarters of each fiscal year on Form N-Q. The Fund’s Forms N-Q are available on the SEC’s website at www.sec.gov.

Ratios To Average Net Assets			
Expenses after waiver ⁽⁵⁾⁽⁶⁾	0.43%	0.56%	1.19% ⁽⁷⁾
Expenses before waiver ⁽⁵⁾	1.14%	1.30%	1.52% ⁽⁷⁾
Net investment loss after waiver ⁽⁵⁾	(0.23%)	(0.44%)	(1.15%) ⁽⁷⁾
Portfolio turnover rate	9.76%	19.65%	2.78% ⁽⁴⁾

⁽¹⁾ For the period January 3, 2017 (commencement of operations) through April 30, 2017.

⁽²⁾ Calculated based on the average shares outstanding during the year.

⁽³⁾ Total return in the above table represents the rate an investor would have earned or lost on an investment in the Fund, assuming reinvestment of distributions, if any.

⁽⁴⁾ Not annualized.

⁽⁵⁾ The ratios do not reflect the Fund's proportionate share of income and expenses including performance fees/allocations, of the underlying Portfolio Funds.

⁽⁶⁾ Reflects voluntary waivers of fees made by the Fund's investment adviser of 0.71%, 0.74% and 0.33% for the periods ended April 30, 2019, April 30, 2018 and April 30, 2017, respectively. Voluntary waivers may be terminated at any time.

⁽⁷⁾ Annualized.

Peachtree Alternative Strategies Fund

Notes to the Financial Statements

April 30, 2019

1. Organization

Peachtree Alternative Strategies Fund (the “Fund” or “Trust”) was organized on August 19, 2016 as a Delaware statutory trust. The Fund commenced operations on January 3, 2017. The Fund is registered under the Investment Company Act of 1940, as amended (the “1940 Act”) as a non-diversified closed-end management investment company and offers interests (“Shares”) registered under the 1940 Act and the Securities Act of 1933, as amended. The Fund operates as a “fund of hedge funds” and provides investors access to a variety of professionally managed private investment funds (each a “Portfolio Fund”) that Homrich & Berg, Inc. (the “Adviser”) believes will provide a diversifying return stream to investors. These Portfolio Funds are not registered under the 1940 Act and may be organized outside of the United States (“U.S.”). The Fund currently offers one class of shares (“Institutional Shares”).

Under the Fund’s organizational documents, its officers and Board of Trustees (“Board”) are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund may enter into contracts with vendors and others that provide for general indemnifications. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund. However, based on experience, the Fund expects that risk of loss to be remote.

2. Significant Accounting Policies

The Fund is an investment company and follows accounting and reporting guidance under Financial Accounting Standards Board Accounting Standards Codification (“ASC”) Topic 946, “Financial Services-Investment Companies”. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”).

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from those estimates.

A. Portfolio Fund Transactions and Income Recognition

Investments in Portfolio Funds are recorded on a subscription effective date basis, which is generally the first day of the calendar month in which the investment is effective. Realized gains and losses are calculated on a specific identification method when redemptions are accepted by a Portfolio Fund, which is generally on the last day of the calendar month. Interest income and expense, if any, are accrued each month. Dividends are recorded on the ex-dividend date.

B. Investment Valuation and Risks

The Fund will calculate the net asset value (“NAV”) of the Institutional Shares as of the close of business on the last business day of each calendar month and at such other times as the Board may determine, including in connection with the repurchase of Institutional Shares.

Peachtree Alternative Strategies Fund

Notes to the Financial Statements (continued)

April 30, 2019

Because the Fund invests all or substantially all of its assets in Portfolio Funds, the NAV of the Institutional Shares will depend on the value of the Portfolio Funds. The NAVs of Portfolio Funds are generally not available from pricing vendors, nor are they calculable independently by the Fund or by the Adviser.

Accordingly, the Board has approved procedures pursuant to which the Fund will value its investments in the Portfolio Funds at fair value (the “Valuation Procedures”). Under the Valuation Procedures, the Adviser is responsible for determining the fair value of each Portfolio Fund as of each date upon which the Fund calculates its NAV (the “NAV Date”). The Valuation Procedures require the Adviser to consider all relevant information when assessing and determining the fair value of the Fund’s interest in each Portfolio Fund. All fair value determinations made by the Adviser are subject to the review and supervision of the Board through its Valuation Committee. The Board’s Valuation Committee is responsible for ensuring that the valuation process utilized by the Adviser is fair to the Fund and consistent with applicable regulatory guidelines.

Pursuant to the Valuation Procedures, the Adviser may conclude in certain circumstances that, after considering information reasonably available at the time the valuation is made and that the Adviser believes to be reliable, the balance provided by the Portfolio Fund investment managers (“Investment Managers”) does not represent the fair value of the Fund’s interest in the Portfolio Fund. In addition, in the absence of specific transaction activity in the interests of a particular Portfolio Fund, the Adviser could consider whether it was appropriate, in light of all relevant circumstances, to value such a position at the Portfolio Fund’s net assets as reported at the time of valuation, or whether to adjust such value to reflect a premium or discount to the reported net assets. Any such decision is subject to the review and supervision of the Valuation Committee and the Board.

As a general matter, the fair value of the Fund’s interest in a Portfolio Fund will be the amount that the Fund could reasonably expect to receive from the Portfolio Fund if the Fund’s interest in the Portfolio Fund was redeemed as of the NAV Date. In accordance with the Valuation Procedures, the fair value of the Fund’s interest in a Portfolio Fund as of a NAV Date will ordinarily be the most recent NAV reported by an Investment Manager or third party administrator (“Portfolio Fund Management”). In the event that the last reported NAV of a Portfolio Fund is not as of the NAV Date, the Adviser may use other information that it believes should be taken into consideration in determining the Portfolio Fund’s fair value as of the NAV Date, including benchmark or other triggers to determine any significant market movement that has occurred between the effective date of the most recent NAV reported by the Portfolio Fund and the NAV Date.

Investment Managers, who operate Portfolio Funds in which the Fund invests, receive fees for their services. The fees include management and incentive fees or allocations based upon the net asset value of the Fund’s investment in the Portfolio Fund. These fees are deducted directly from each Portfolio Fund’s assets in accordance with the governing documents of the Portfolio Fund. Generally, fees payable to an Investment Manager are estimated to range from 1.0% to 2.5% (annualized) of the average NAV of the Fund’s investment in a Portfolio Fund. In addition, certain Investment Managers

Peachtree Alternative Strategies Fund

Notes to the Financial Statements (continued)

April 30, 2019

charge an incentive allocation or fee which can range up to and in some cases above 25% of a Portfolio Fund's net profits. The impact of these fees are reflected in the Fund's performance, but are not operational expenses of the Fund. Incentive fees may be subject to certain threshold rates.

Based on the information the Adviser typically receives from Portfolio Fund Management, the Fund may not be able to determine, on a look-through basis, if any investments, on an aggregate basis, held by the Portfolio Funds represent greater than 5% of the Fund's net assets.

The Fund's interests in Portfolio Funds could also be illiquid and may be subject to substantial restrictions on transferability. The Fund may not be able to acquire initial or additional interests in a Portfolio Fund or withdraw all or a portion of its investment from a Portfolio Fund promptly after it has made a decision to do so because of limitations set forth in that Portfolio Fund's governing documents. See the Schedule of Investments for more information.

Generally, the fair value of the Fund's investment in a Portfolio Fund represents the Fund's proportionate share of that Portfolio Fund's net assets as reported by applicable Portfolio Fund Management. All valuations were determined by the Adviser consistent with the Fund's Valuation Procedures, and are net of management and incentive fees pursuant to the Portfolio Funds' applicable agreements. The fair value represents the amount the Fund expects to receive, gross of redemption fees or penalties, at April 30, 2019, if it were to liquidate its investments in the Portfolio Funds. Because of the inherent uncertainty of valuation, the value of investments in the Portfolio Funds held by the Fund may differ significantly from the values that would have been used had a ready market existed, and differences could be material.

The valuation techniques described below maximize the use of observable inputs and minimize the use of unobservable inputs in determining fair value. The inputs or methodology used for valuing investments is not necessarily an indication of the risk associated with investing in those investments. The inputs used for valuing the Fund's investments are summarized in the three broad levels listed below:

- Level 1 – Unadjusted quoted prices in active markets for identical investments and/or registered investment companies where the value per share is determined and published and is the basis for current transactions for identical assets or liabilities at the valuation date.
- Level 2 – Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly.
- Level 3 – Inputs, broadly referred to as the assumptions that market participants use to make valuation decisions, are unobservable and reflect the Adviser's best estimate of what market participants would use in pricing the financial instrument at the measurement date.

In determining fair values as of April 30, 2019, the Adviser has, as a practical expedient, estimated fair value of each Portfolio Fund using the NAV (or its equivalent) provided by the Portfolio Fund Management of each Portfolio Fund as of that date. Each investment for which fair value is measured using the Portfolio Fund's net asset value as a practical expedient is not required to be categorized within the fair value hierarchy. Accordingly, Portfolio Funds with a fair value of \$197,381,050 have not been categorized.

Peachtree Alternative Strategies Fund

Notes to the Financial Statements (continued)

April 30, 2019

Investments in mutual funds and money market mutual funds are generally priced at the ending NAV provided by the service agent of the funds. The following is a summary of the inputs used to value the Fund's investments in such instruments as of April 30, 2019:

Assets	Valuation Inputs				Total
	Level 1	Level 2	Level 3		
Money Market Funds	\$ 21,992,494	\$ —	\$ —		\$ 21,992,494

3. Investment Strategies and Risks

The Fund's investment objective is to create a diversified portfolio of hedge fund strategies that generates attractive risk-adjusted returns relative to traditional asset classes and that generates a return stream that is not highly correlated to equity market performance. The Fund will seek to achieve its investment objective by investing in a variety of hedge fund strategies that the Adviser believes will provide a diversifying return stream to shareholders.

Potential strategies for investment include, but are not limited to: (1) long/short equity (taking "long" positions in equity securities of U.S. and foreign issuers that are believed to be likely to increase in value and taking "short" positions in equity securities of U.S. and foreign issuers that are believed to be likely to decline in value); (2) credit long/short (investing in credit-sensitive securities, long and/or short, based upon credit analysis of issuers and securities, and credit market views); (3) distressed credit (using intensive credit analysis to invest in equity and/or fixed income securities of financially troubled U.S. and/or foreign issuers); (4) discretionary macro (investing across a variety of securities and financial instruments of U.S. and foreign issuers based on interpretations of the global macro economy and changes therein on the valuation of such securities and financial instruments). Investments may include equity and fixed income securities, currencies and commodities (i.e., agricultural, metals, energy); (5) managed futures (trading of futures contracts and options on futures contracts as either buyers or sellers of contracts representing real assets such as gold, silver, wheat, coffee, sugar, heating oil, or financial assets such as government bonds, equity indices and currencies to take advantage of investment opportunities in the equity, fixed income, currency and commodity markets); (6) structured credit (investments in residential and commercial mortgage-backed securities, other asset-backed securities, collateralized loan obligations and collateralized debt obligations); (7) statistical arbitrage (identifying pricing anomalies in equities and other asset classes. Generally this strategy utilizes heavy quantitative, computational, and statistical analysis to identify short-term trends that can be taken advantage of in the relevant markets); and (8) multi-strategy (utilizing several of the strategies listed here, and potentially other strategies).

The Fund will have diversified exposure to various hedge fund strategies that fall within 5 main categories: equity related strategies (such as equity long/short), credit related strategies (such as credit long/short and distressed credit), quantitative strategies (such as statistical arbitrage), multi-strategy, and opportunistic investments. Although allocations may vary outside of these ranges based on market conditions and opportunity set, the Fund is generally expected to allocate between 25%-40% to multi-strategy, 20%-30% to equity related strategies, 20%-30% to credit related strategies,

Peachtree Alternative Strategies Fund

Notes to the Financial Statements (continued)

April 30, 2019

10%-20% to quantitative strategies and 0%-20% to opportunistic strategies. Equity related strategies tend to have positive correlation to equity markets. The remaining strategies are intended to have lower correlation to equity markets over time. Investment Managers are likely to invest in an array of securities across the globe, including emerging markets, in order to provide a diversifying return stream that is unrelated to traditional equity market risk factors.

The Adviser will determine the amount to allocate to each strategy. The Adviser intends that amounts will be allocated to at least several of the strategies at all times. Factors that determine the amount that the Adviser will allocate to each strategy include: the Adviser's opinion of the opportunity set in that strategy, the capacity for investment with high quality managers in a given strategy and overall risk management of the Fund.

In order to implement the strategies, the Investment Managers may utilize one or more approaches, including but not limited to: (1) the effect of economic, political, or corporate changes on the prices of securities (Directional Trading Approach); (2) the effect of events on different securities (Event Driven Approach); (3) perceived valuations of securities (e.g., whether an issuer is overvalued or undervalued) (Fundamental Approach) and (4) a mispricing of securities relative to each other or relative to historic norms (Relative Value Approach).

While it is anticipated that many Portfolio Funds will invest in publicly traded U.S. and foreign common stocks, Portfolio Funds may also use other equity securities such as preferred stock, convertible securities and warrants ("Equity Securities"). Many Portfolio Funds may also invest in fixed income securities such as corporate debt obligations, government securities, municipal securities, financial institution obligations, mortgage-related securities, asset-backed securities and zero-coupon securities issued by U.S. issuers and similar securities issued by foreign issuers (collectively, "Fixed Income Securities"). Fixed Income Securities may have various maturities, duration and quality limitations, and may include high yield fixed income securities or "junk bonds" (higher-risk, lower-rated fixed income securities such as those rated lower than BBB- by Standard & Poor's Rating Service, Inc. ("S&P") or lower than Baa3 by Moody's Investors Service, Inc. ("Moody's")). Many Portfolio Funds may also take long or short positions in Fixed Income Securities as a hedge against the equity or fixed income exposure in its portfolio.

Because Portfolio Funds are not registered under the 1940 Act and their governing documents typically do not impose significant investment restrictions, a Portfolio Fund may without limitation or prior notice to the Adviser, invest and trade in a broad range of securities, derivatives and other financial instruments (collectively, "Assets"). While, generally, each Portfolio Fund carries its investments at fair value, these investments are associated with a varying degree of off-balance sheet risks, including both market and credit risks. Market risk is the risk of potential adverse changes to the value of the Assets because of the changes in market conditions such as interest and currency rate movements and volatility of Asset values. Credit risk is the risk of the potential inability of counterparties to perform the terms of the contracts, which may be in excess of the amounts recorded in the Portfolio Funds' respective balance sheets. In addition, Portfolio Funds may engage in the short sale of securities. A short sale of a security not owned by a Portfolio Fund involves the sale of a security that is borrowed from a counterparty to complete the sale. The sale of a borrowed security may result in a loss if the

Peachtree Alternative Strategies Fund

Notes to the Financial Statements (continued)

April 30, 2019

price of the borrowed security increases after the sale. Purchasing securities to close out the short position can itself cause their market price to rise further, increasing losses. Furthermore, a short seller may be prematurely forced to close out a short position if a counterparty demands the return of borrowed securities. Losses on short sales are theoretically unlimited, although losses to the Fund are limited to its investment in a particular Portfolio Fund.

4. Investment Advisory Fee and Other Transactions with Affiliates

A. Investment Advisory and Sub-Advisory Fees

The Adviser serves as the Fund's investment adviser. The Adviser receives an annual fee for its services, computed and paid monthly, of 0.75% of the Fund's month end net assets. Prior to September 1, 2018 the Adviser received an annual fee of 1.00% on the Fund's month end net assets. Prior to November 8, 2018, ABS Investment Management, LLC ("Sub-Adviser") served as the Fund's sub-adviser. The Fund paid the Sub-Adviser an annual fee for its services, computed and paid monthly, of 0.85% of the value of Portfolio Funds recommended by the Sub-Adviser. The Adviser's fee was reduced by the amount that the Fund paid to the Sub-Adviser. The Fund is responsible for the expenses of the operational due diligence conducted by the Adviser and for the benefit of the Fund.

The Adviser has contractually agreed to waive its management fee and/or reimburse expenses to the extent necessary to ensure that the total annual Fund operating expenses attributable to the Institutional Shares will not exceed 1.25% (after fee waivers and/or expense reimbursements, and exclusive of taxes, interest, portfolio transaction expenses, acquired fund fees and expenses and extraordinary expenses not incurred in the ordinary course of the Fund's business). The arrangements will continue until, at least, August 31, 2019 and may only be terminated prior to that date by the Board. Expenses reimbursed and/or fees waived by the Adviser may be recouped by the Adviser for a period of three years following the date such reimbursement or waiver was made if such recoupment does not cause current expenses to exceed the expense limit for Institutional Shares in effect at the time the expenses were paid/waived, or any expense limit in effect at the time of repayment. Prior to August 31, 2018, the Adviser had contractually agreed to waive its management fee and/or reimburse expenses to the extent necessary to ensure that the total annual Fund operating expenses attributable to the Institutional Shares will not exceed 1.50% (after fee waivers and/or expense reimbursements, and exclusive of taxes, interest, portfolio transaction expenses, acquired fund fees and expenses and extraordinary expenses not incurred in the ordinary course of the Fund's business). The amount subject to recoupment by the Adviser, pursuant to the aforementioned conditions, is \$47,461 which is recoverable through October 31, 2019. For the year ended April 30, 2019, the Adviser voluntarily waived 100% of its advisory fees, which amounted to \$1,475,985. This voluntary waiver may be terminated at any time, and any fees waived voluntarily are not subject to recoupment.

Peachtree Alternative Strategies Fund

Notes to the Financial Statements (continued)

April 30, 2019

B. Administration, Compliance Consulting, Fund Accounting and Transfer Agent Fees

Pursuant to an agreement between the Fund and Ultimus Fund Solutions, LLC (“Administrator” or “Ultimus”), the Administrator provides administration, compliance consulting, fund accounting and transfer agent services to the Fund and supplies certain officers to the Fund including a Principal Financial Officer, a Chief Compliance Officer, and an Anti-Money Laundering Compliance Officer. The Fund pays the Administrator a basis point fee, subject to fee minimums, for administrative, fund accounting, and transfer agent services, a fixed annual fee based on the net assets of the Fund for compliance consulting services and certain out of pocket expenses.

C. Distribution

Ultimus Fund Distributors, LLC (the “Distributor”) acts as principal underwriter and distributor of the Fund’s shares of beneficial interest on a best effort basis, subject to various conditions. The Distributor may retain additional broker-dealers and other financial intermediaries (each a “Selling Agent”) to assist in the distribution of shares and shares are available for purchase through these Selling Agents or directly through the Distributor. Generally, shares are only offered to investors that are U.S. persons for U.S. federal income tax purposes.

D. General

Certain officers of the Fund are officers, directors and/or trustees of the Adviser, Administrator or the Distributor. Independent trustees are paid \$2,500 for each regularly scheduled Board meeting and \$1,250 for each special Board meeting attended, for their services to the Fund. Interested trustees and officers of the Trust are not paid for services directly by the Fund.

5. Capital Share Transactions

Shares of the Fund will be traded for purchase only through the Distributor, or a Selling Agent, as of the first business day of each month. Capital transactions are recorded on their effective date. To provide a limited degree of liquidity to shareholders, the Fund may from time to time offer to repurchase shares pursuant to written repurchase offers, but is not obligated to do so.

Repurchase offers will be made at such times and on such terms as may be determined by the Board in its sole discretion and generally will be offers to repurchase an aggregate specified dollar amount of outstanding Institutional Shares or a specific number of Institutional Shares. Any such offer will be made only on terms that the Board determines to be fair to the Fund and to all shareholders or persons holding Institutional Shares acquired from shareholders. When the Board determines that the Fund will repurchase shares or portions thereof, notice will be provided to each shareholder describing the terms thereof, and containing information shareholders should consider in deciding whether and how to participate in such repurchase opportunity. The Board convenes quarterly to consider whether or not to authorize a tender offer. The Board expects that repurchase offers, if authorized, will be made no more frequently than on a quarterly basis and will typically have a valuation date as of March 31, June 30, September 30 or December 31 (or, if any such date is not a business day, on the last business day of such calendar quarter).

Peachtree Alternative Strategies Fund

Notes to the Financial Statements (continued)

April 30, 2019

6. Purchases and Sales of Portfolio Funds

Aggregate purchases and proceeds from sales of Portfolio Funds for the year ended April 30, 2019 amounted to \$56,665,159 and \$18,021,041, respectively. There were no purchases or sales of U.S. government obligations for the year ended April 30, 2019.

7. Distributions

The Fund declares and pays dividends on investment income, if any, annually. The Fund also makes distributions of net capital gains, if any, annually.

8. Federal Income Taxes

It is the policy of the Fund to qualify or continue to qualify as a regulated investment company by complying with the provisions available to certain investment companies, as defined in applicable sections of the Internal Revenue Code, and to make distributions of net investment income and net realized capital gains sufficient to relieve it from all, or substantially all, federal income taxes.

The following information is provided on a tax basis as of April 30, 2019:

Gross unrealized appreciation	\$ 6,067,163
Gross unrealized depreciation	(3,454,409)
Net unrealized appreciation	\$ 2,612,754

As of April 30, 2019, the aggregate cost of investment entities for federal tax purposes was \$216,760,790. The difference between the federal income tax cost of portfolio investments and the financial statement cost is due to certain timing differences in the recognition of capital gains or losses under income tax regulations and GAAP. These “book/tax” differences are temporary in nature and are primarily due to holdings classified as passive foreign investment companies.

As of October 31, 2018, the Fund’s most recent tax year end, the following reclassification was made on the Statement of Assets and Liabilities for the Fund:

Paid-in Capital	Accumulated Earnings (Deficit)
\$ (21,515)	\$ 21,515

Such reclassifications, the result of permanent differences between the financial statement and income tax reporting requirements, had no effect on the Fund’s net assets or NAV per share.

Peachtree Alternative Strategies Fund

Notes to the Financial Statements (continued)

April 30, 2019

As of October 31, 2018, the Fund's most recent tax year end, the components of accumulated earnings (deficit) on a tax basis were as follows:

Undistributed ordinary income	\$ 2,460,963
Undistributed long-term capital gains	1,893,476
Accumulated earnings	4,354,439
Accumulated capital and other losses	(38,942)
Unrealized appreciation/(depreciation)	(1,004,018)
Total	\$ 3,311,479

As of October 31, 2018, the Fund's most recent tax year end, the tax character of distributions was as follows:

Distributions paid from:

Ordinary income	\$ 2,777,940
Net long-term capital gains	341,271
Total distributions paid	\$ 3,119,211

Management of the Fund has reviewed tax positions taken in tax years that remain subject to examination by all major tax jurisdictions, including federal (i.e., all open tax periods since inception). Management believes there is no tax liability resulting from unrecognized tax benefits related to uncertain tax positions taken.

9. Control Persons

A control person is a shareholder who owns beneficially, or through controlled companies, more than 25% of the voting securities of a company or acknowledges the existence of control. Shareholders owning voting securities in excess of 25% may determine the outcome of any matter affecting and voted on by shareholders of the Fund. As of April 30, 2019, there were no beneficial owners, either directly or indirectly, of more than 25% percent of the Fund.

10. Recent Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, which changes the fair value measurement disclosure requirements of FASB Accounting Standards Codification Topic 820, Fair Value Measurement. The update to Topic 820 includes new, eliminated, and modified disclosure requirements. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019, including interim periods, although early adoption is permitted. Management has evaluated the implications of certain provisions of ASU 2018-13 and has determined to early adopt all aspects related to the removal and modification of certain fair value measurement disclosures under the ASU effective immediately. The impact of the adoption was not material to the Fund's financial statements.

Peachtree Alternative Strategies Fund

Notes to the Financial Statements (continued)

April 30, 2019

11. Subsequent Events

The Fund announced that the Board had approved a tender offer to purchase up to 20% of the net asset value of the Fund's Institutional Shares to be calculated at a price equal to the Fund's Institutional Shares net asset value as of June 28, 2019. The Fund commenced its tender offer on April 15, 2019 and the expiration of the tender offer was on May 15, 2019.

Management of the Fund has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date these financial statements were issued. Based upon this valuation, management has determined there were no additional items requiring adjustment of the financial statements or additional disclosure.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Trustees of
Peachtree Alternative Strategies Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Peachtree Alternative Strategies Fund (the “Fund”) as of April 30, 2019, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, including the related notes, and the financial highlights for each of the three periods in the period then ended (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of April 30, 2019, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the three periods in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2019, by correspondence with the custodian and managers of Portfolio Funds. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Fund’s auditor since 2016.

COHEN & COMPANY, LTD.

Trustees and Officers (Unaudited)

The Board of Trustees supervises the business activities of the Trust. Each Trustee serves as a trustee until termination of the Trust unless the Trustee dies, resigns, retires or is removed.

The following tables provide information regarding the Trustees and Officers.

The following table provides information regarding each of the Independent Trustees.

Name and year of Birth, Positions (s) Held with Company, Term of Office and Length of Time Served ⁽¹⁾	Principal Occupation(s) During Past Five Years	Number of Funds in Complex Overseen by Trustee	Other Directorships Held by Trustee During the Past 5 Years
Independent Trustees:			
Catherine Abely Born: 1961 Trustee; Member, Audit Committee; Chairwoman and Member, Nominating and Valuation Committees Since 2016	Investment Director, Children's Healthcare of Atlanta, Inc. (2000 - October 2018).	1	None.
Conrad S. Ciccotello Born: 1960 Trustee; Lead Independent Trustee; Chairman/ Member, Audit Committee; Member, Nominating and Valuation Committees Since 2016	Professor and Director of the Reiman School of Finance in Daniels College of Business at the University of Denver since July 2017; Associate Professor of Risk Management and Insurance, Robinson College of Business, Georgia State University (1999 - June 2017).	1	Tortoise Capital Advisers Fund Complex (5 portfolios) and CorEnergy Infrastructure Trust, Inc.

The following table provides information regarding the Trustee who is considered an “interested person” of the Trust, as that term is defined under the 1940 Act.

Name and year of Birth, Positions (s) Held with Company, Term of Office and Length of Time Served⁽²⁾	Principal Occupation(s) During Past Five Years	Number of Funds in Complex Overseen by Trustee	Other Directorships Held by Trustee During the Past 5 Years
Stephanie Lang Born: 1974 Trustee; Chairwoman Since 2016	Principal and Chief Investment Officer of the Adviser since 2005.	1	None.

⁽¹⁾ Each Trustee serves until retirement, resignation or removal from the Board. Trustees may be removed in accordance with the Declaration of Trust with or without cause by written instrument signed by a majority of the Trustees or by vote of a majority of the shareholders, at a meeting holding at least two-thirds (2/3) of outstanding Institutional Shares.

⁽²⁾ Ms. Lang is an Interested Trustee because of her affiliation with the Adviser.

Principal Officers who are Not Trustees

Name and year of Birth, Positions (s) Held with Company, Term of Office and Length of Time Served⁽¹⁾	Principal Occupation(s) During Past Five Years
Ford Donohue ⁽²⁾ Born: 1987 President and Principal Executive Officer Since 2016	Senior Investment Analyst at the Adviser (since 2014). Sales and Trading Associate at Citigroup Global Markets (2010-2014).
Gregory Knoth ⁽³⁾ Born: 1970 Treasurer, Principal Financial Officer and Principal Accounting Officer Since 2019	Vice President, Mutual Fund Controller, Ultimus Fund Solutions, LLC (December 2015 to present); Vice President and Manager of Fund Accounting, Huntington Asset Services, Inc. (n/k/a Ultimus Asset Services, LLC) (2013 to 2015).
Martin R. Dean ⁽³⁾ Born: 1963 Chief Compliance Officer Since 2017	Vice President - Director of Fund Compliance, Ultimus Fund Solutions, LLC (December 2015 to present); Senior Vice President and Compliance Group Manager, Huntington Asset Services, Inc. (July 2013 to December 2015).

Name and year of Birth, Positions (s) Held with Company, Term of Office and Length of Time Served⁽¹⁾	Principal Occupation(s) During Past Five Years
Simon Berry ⁽³⁾ Born: 1971 Secretary Since 2017	Senior Attorney, Ultimus Fund Solutions, LLC (June 2016 to present); Attorney, Kentucky Department of Financial Institutions (2009-2016).

- (1) Each officer of the Trust serves for an indefinite term until the date his or her successor is elected and qualified, or until he or she sooner dies, retires, is removed or becomes disqualified.
- (2) The business address of this officer is 3550 Lenox Road, NE, Suite 2700, Atlanta, Georgia 30326.
- (3) The business address of this officer is 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246.

Other Information (Unaudited)

The Fund’s Statement of Additional Information (“SAI”) includes additional information about the trustees and is available without charge, upon request. You may call toll-free at (800) 657-3812 to request a copy of the SAI or to make shareholder inquiries.

Dividend Reinvestment Plan (Unaudited)

Shareholders will automatically participate in the Fund’s Dividend Reinvestment Plan (“DRIP”) and have all income dividends and/or capital gains distributions automatically reinvested in additional Institutional Shares unless they elect in writing to receive distributions in cash in their Subscription Agreement with the Fund. Ultimus (the “Agent”) acts as the agent for participants under the DRIP. Participants in the DRIP will receive an amount of Institutional Shares equal to the amount of the distribution on that Participant’s Institutional Shares divided by the immediate post-distribution NAV per Share of the Institutional Shares.

Shareholders who elect not to participate in the DRIP will receive all distributions in cash paid by wire (or, if the Institutional Shares are held in street or other nominee name, then to the nominee) by Ultimus as dividend paying agent. The automatic reinvestment of dividends and distributions will not relieve participants of any income taxes that may be payable (or required to be withheld) on dividends and distributions.

A shareholder may withdraw from the DRIP at any time. There will be no penalty for withdrawal from the DRIP and shareholders who have previously withdrawn from the DRIP may rejoin it at any time. Changes in elections must be in writing and should include the shareholder’s name and address as they appear on the records of the Fund. An election to withdraw from the DRIP will, until such election is changed, be deemed to be an election by a shareholder to take all subsequent distributions in cash. An election will be effective only for a distribution declared and having a record date of at least 10 days after the date on which the election is received. A shareholder who’s Institutional Shares are held in the name of a broker or nominee should contact such broker or nominee concerning changes in that shareholder’s election.

Questions concerning the DRIP should be directed to the Agent at P.O. Box 46707, Cincinnati, OH 45246-0707 or (800) 657-3812.
